Calendar of Events Item: Environmental Connection 2011 Annual Conference and Expo of the International Erosion Control Association

Environmental Connection 2011 (EC11), annual conference and expo of the International Erosion Control Association (IECA), is the world's largest soil and water event. Combining quality education with a world-class expo, EC11 is the premier gathering place for the erosion and sediment control community, drawing nearly 2000 participants with 150 exhibitors to Orlando, FL, February 20-23, 2011.

Training is the cornerstone of Environmental Connection. Each year, hundreds of industry professionals are educated through the full-day, intensive training courses and shorter technical sessions which consist of case studies, research papers, forums, workshops and roundtable discussions. Topics range from construction site BMP selection, installation and maintenance to low impact development to streambank and wetland restoration.

The expo, February 22nd and 23rd, will showcase the latest in erosion, sediment control and stormwater products and technology. With exclusive expo hall hours, attendees don't have to choose between attending sessions or cruising through the expo—there's enough time for both.

For more information about EC11 visit <http://www.ieca.org/conference/annual/ec.asp>.

About IECA

The International Erosion Control Association (IECA) is the world's oldest and largest association devoted entirely to helping members solve the problems caused by erosion and its byproduct – sediment. Founded in 1972, IECA is a non-profit organization that serves as the premier global resource for the prevention and control of erosion. For more information about state-of-the-art educational events and materials, please visit our website at <http://www.ieca.org>.
