

2005 IECA Great Rivers Chapter Spring Conference and Expo

**Location: Holiday Inn
Wentzville, MO
Dates: April 13 & 14, 2005**

13.5 PDH's Available to All Attendees

Meet Us In the Gateway to the West!!

Come join us for an excellent learning experience in the effectiveness of BMP's, the use and effectiveness of Detention basins, Inspection and Monitoring methods, and Bioremediation.

We will start off with a presentation from the Missouri Department of Natural Resources on what is expected in regards to inspections, monitoring, reporting and maintenance.

We will then have sessions on measuring effectiveness of BMP's and Water Quality and measurement criteria. On the 14th, we start with Inspection methods and how to keep your SWPPP in compliance and a Municipal forum with key municipal decision makers.

Then join us for our field day experience in the afternoon looking at installed BMP's and working with equipment and products that can be key tools in your arsenal to stay in compliance with Phase II of the Clean Water Act. This will be a hands-on learning opportunity.

Join us for a great educational experience. Several of the speakers will be from outside the area to give the region a different perspective. We will also be bringing ideas and products from the national level to the local community and showing how they work and where they apply.

Program:
April 13th
7:30-8:30 AM
